CURA DISPLAY

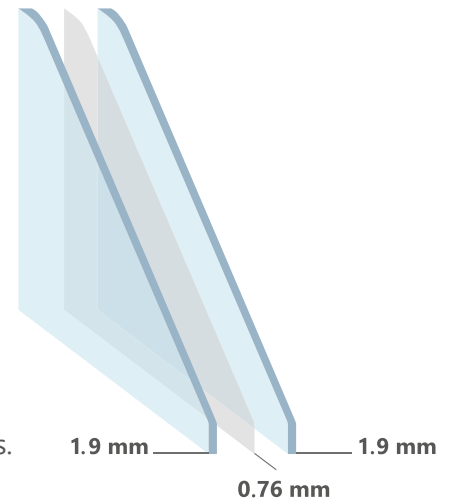

Perfection in Ultra Thin Laminated glass

Some applications require laminated glass that is not only very thin, but also has to meet high precision standards in terms of dimensions and finish. With the name CURA DISPLAY, CURA Glass offers a new range of laminated glass products that not only meets these requirements but also meets the safety standards. This glass can be used i.e. in displays, touchscreens, showcases and other visual presentations using glass.

CURA DISPLAY Ultra Thin

- ◆ Laminated glass with a thickness of 4.56 mm
- ◆ Applications with TOUCH Glass, anti-reflective and float possible
- ◆ Cutting/grinding to 0.1 mm with a tolerance of +/- 0.6 mm
- ◆ Safety glass 1B1 according to EN-12600
- ◆ Security glazing P1A according to EN-356
- ◆ Maximum dimension 1600 x 3210 mm
